# Your Top Value on Living in Warringah (Choose 1)

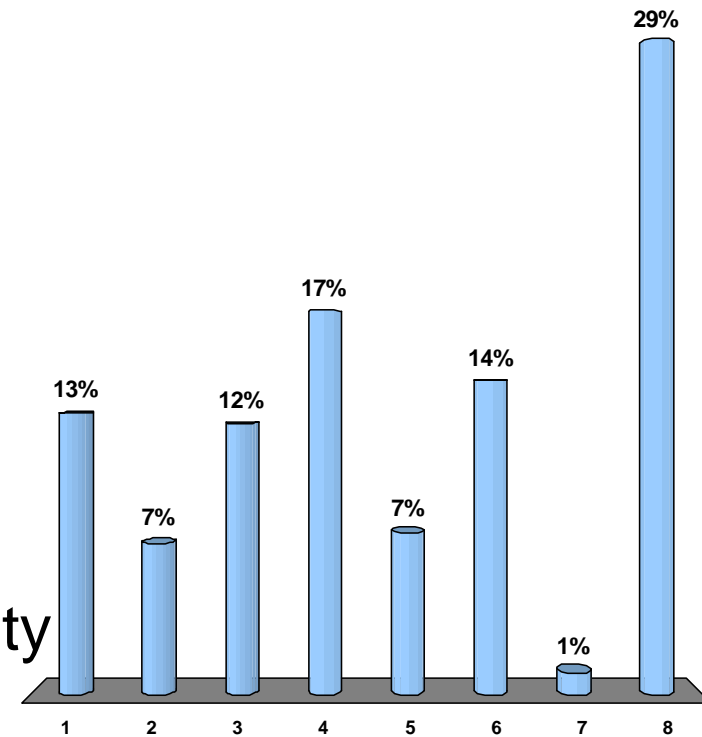

1. Ease of getting around
2. A sense of community, where people care and support each other
3. Safe and well maintained outdoor spaces, that are accessible to everyone
4. A beautiful, natural environment with access to both the beach and the bush
5. A strong local economy
6. Character of housing
7. Other

# Best thing about Population Growth (Choose 1)

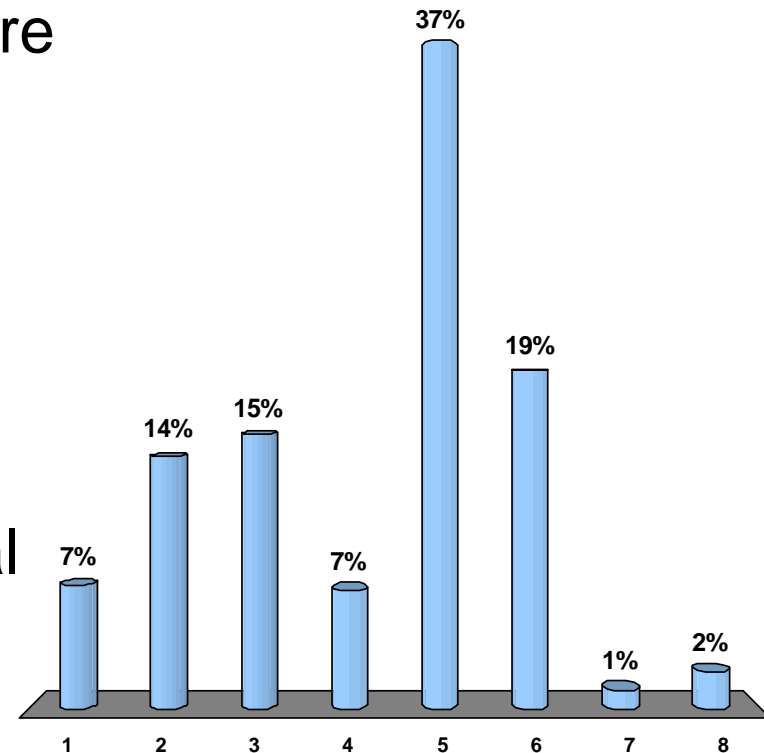

1. Results in a stronger local economy
2. Increase property prices
3. Allows for the provision of better infrastructure (excluding roads or public transport)
4. Allows for improvements to the road network and public transport
5. Allows for the provision of more community facilities
6. Results in greater community diversity
7. Other
8. None

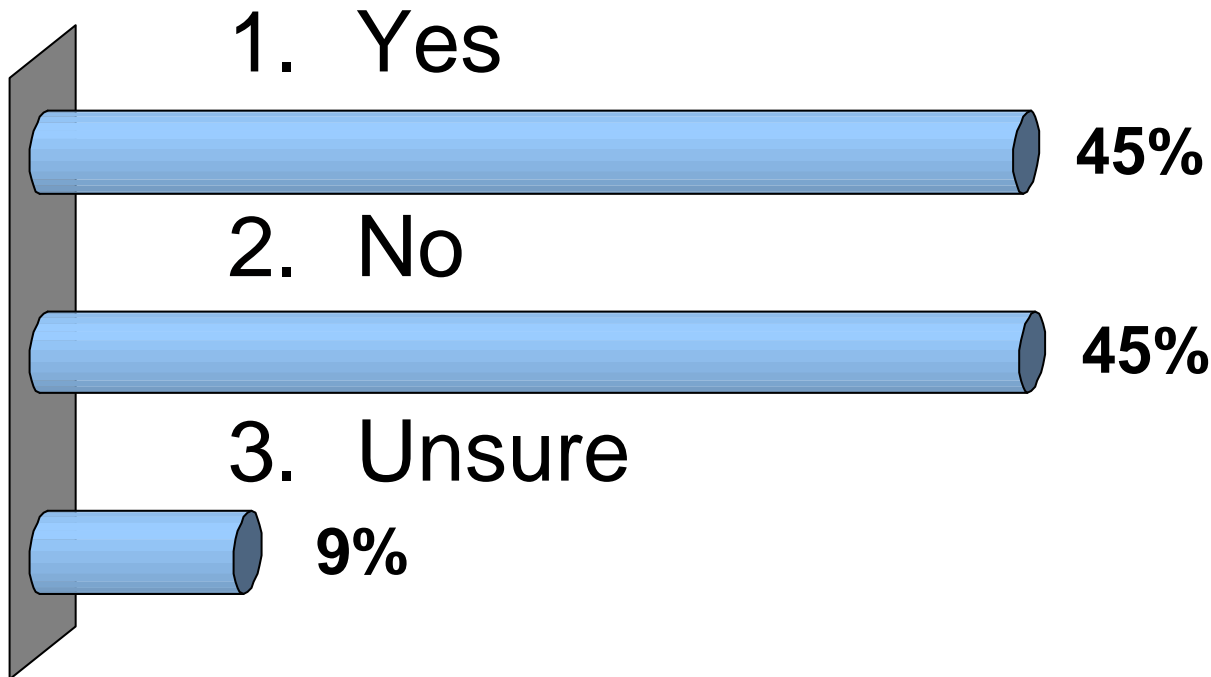

# Worst thing about Population Growth (Choose 1)

1. Places a greater strain on public transport
2. Increased pressure on infrastructure (water/sewerage/waste/electricity)
3. Results in loss of green space
4. Places a greater strain on health and education services
5. Results in more traffic congestion
6. Adversely impacts on existing local character
7. Other
8. None

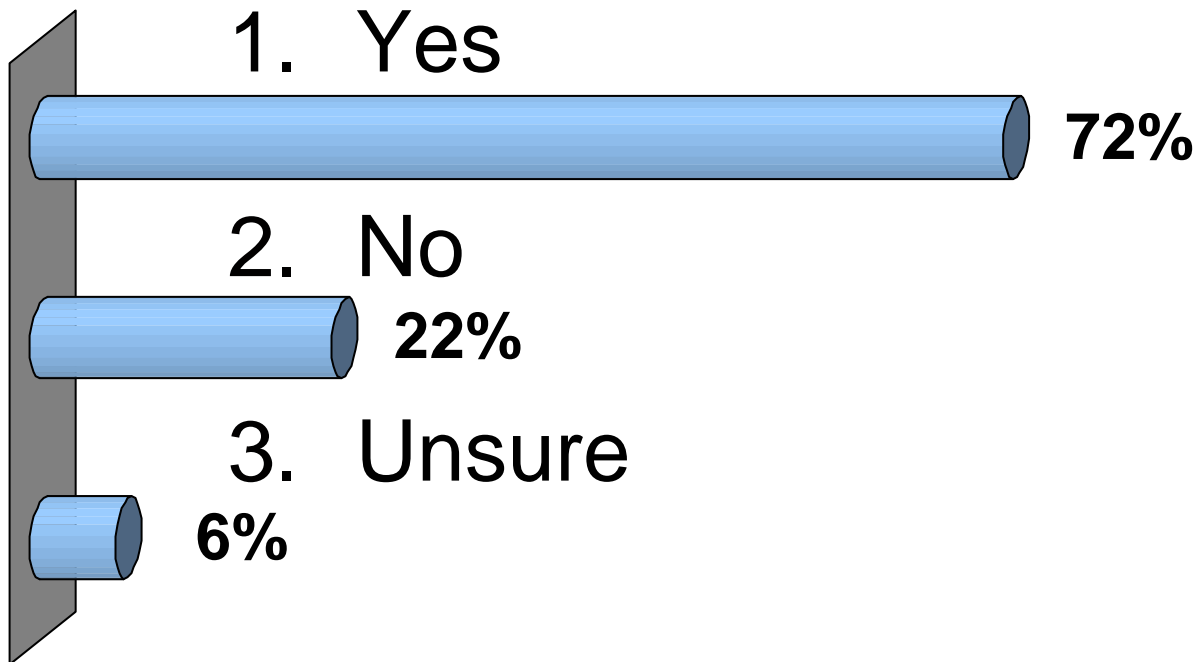

# To meet the housing target should development be allowed in non-urban areas?

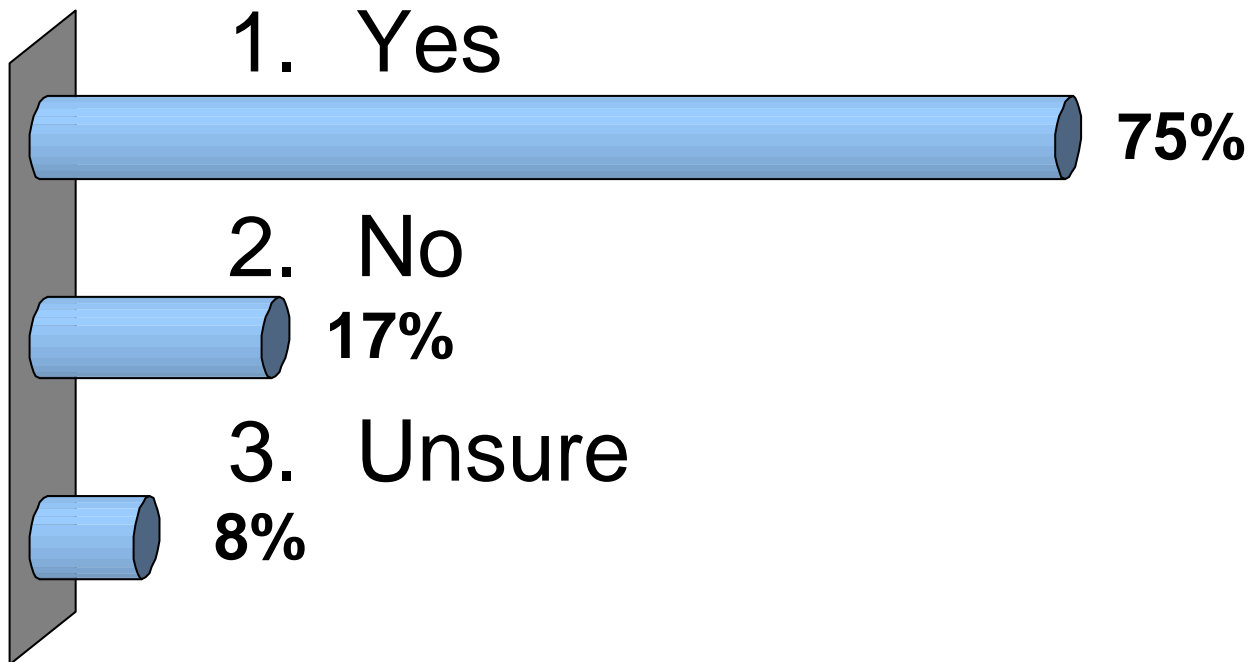

# To meet the housing target should Council allow dual occupancy development throughout Warringah?

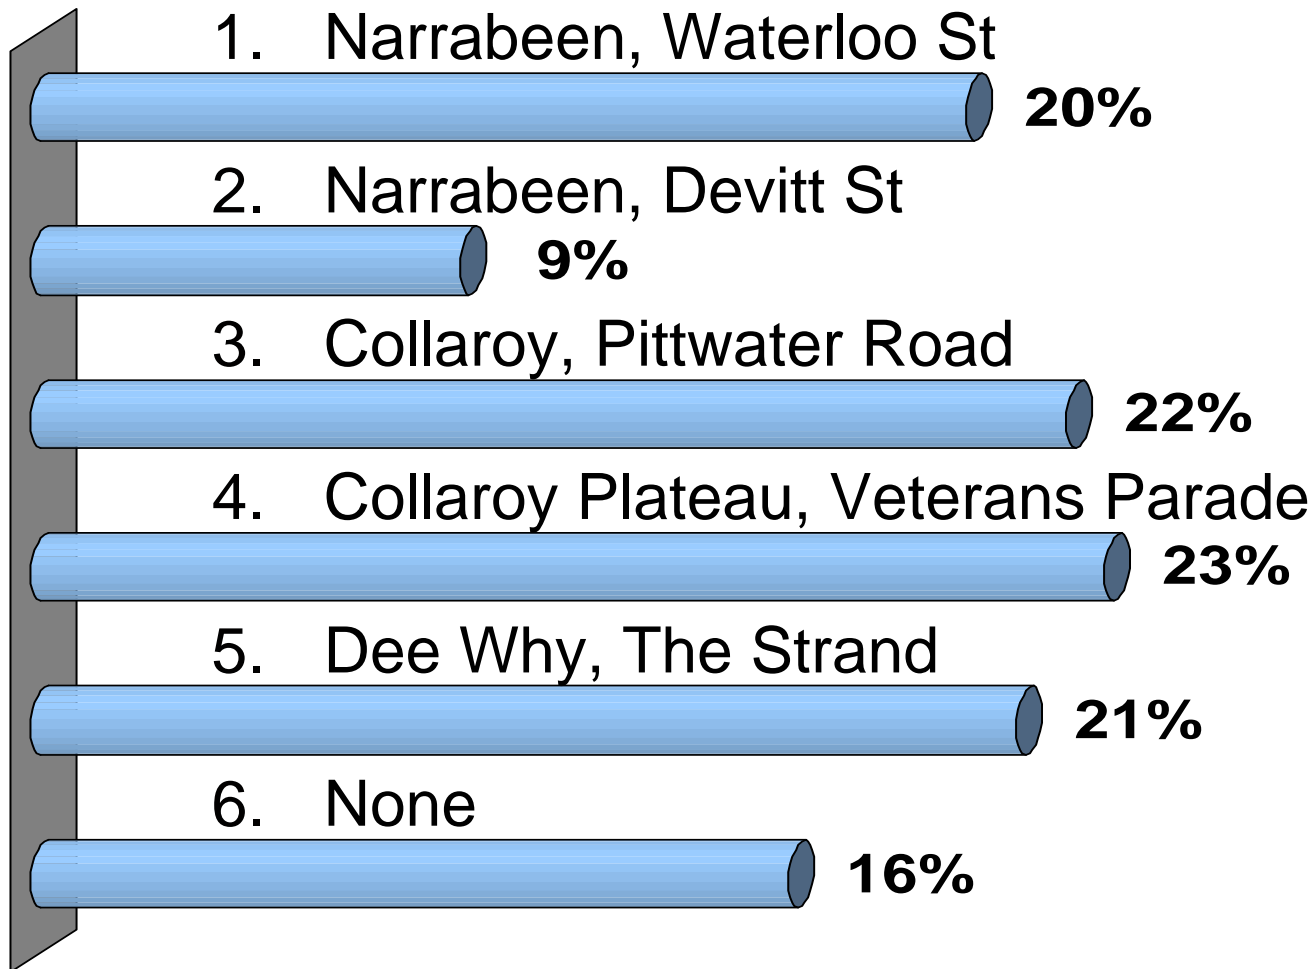

The Metro Sydney aims to focus residential development with centres & corridors, which have access to public transport and local services.  
Do you support this?

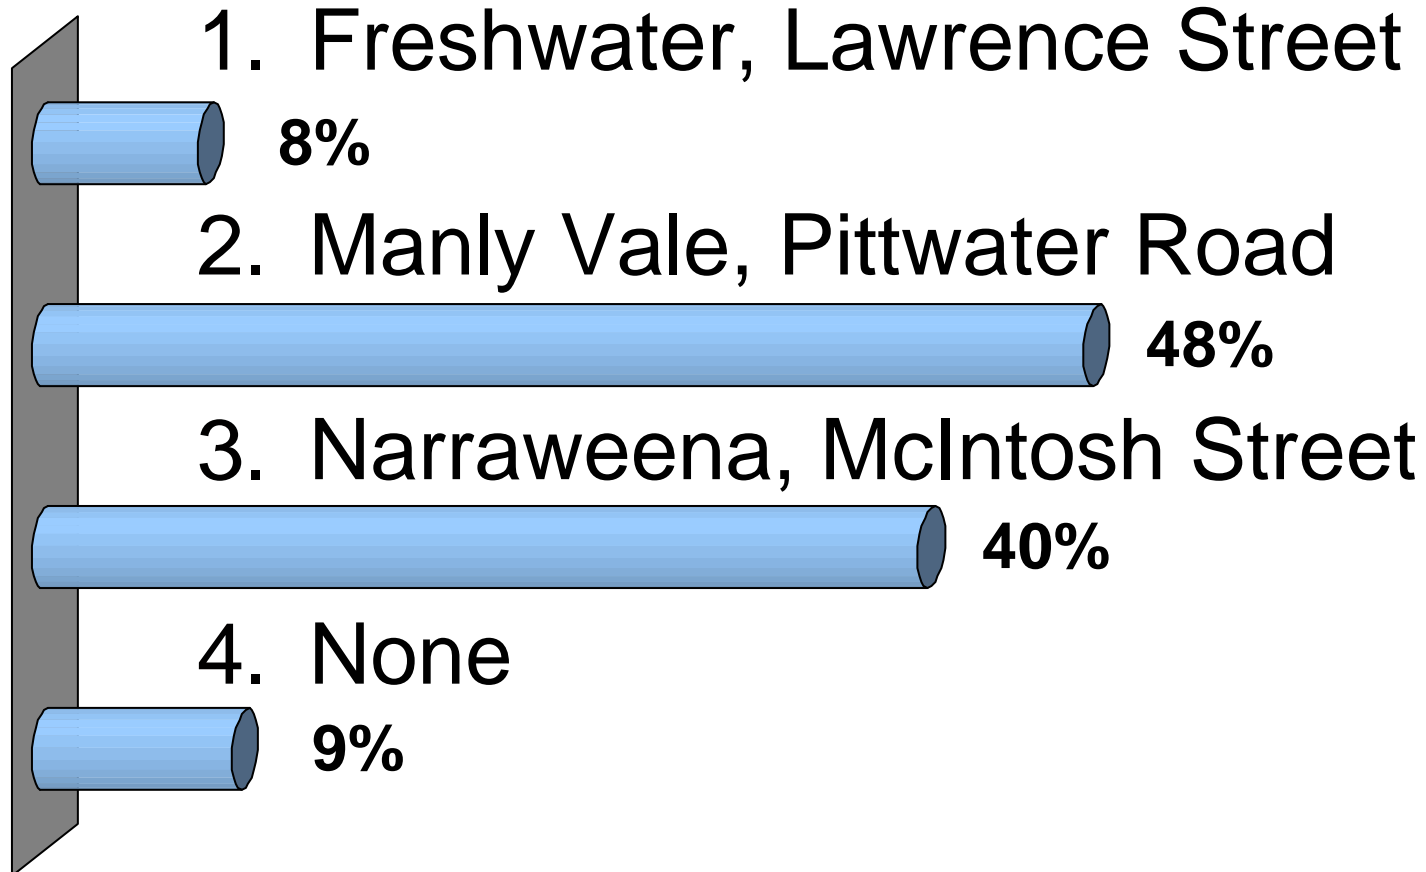

# In Ward A, which centres do you think are suitable for accommodating further growth?

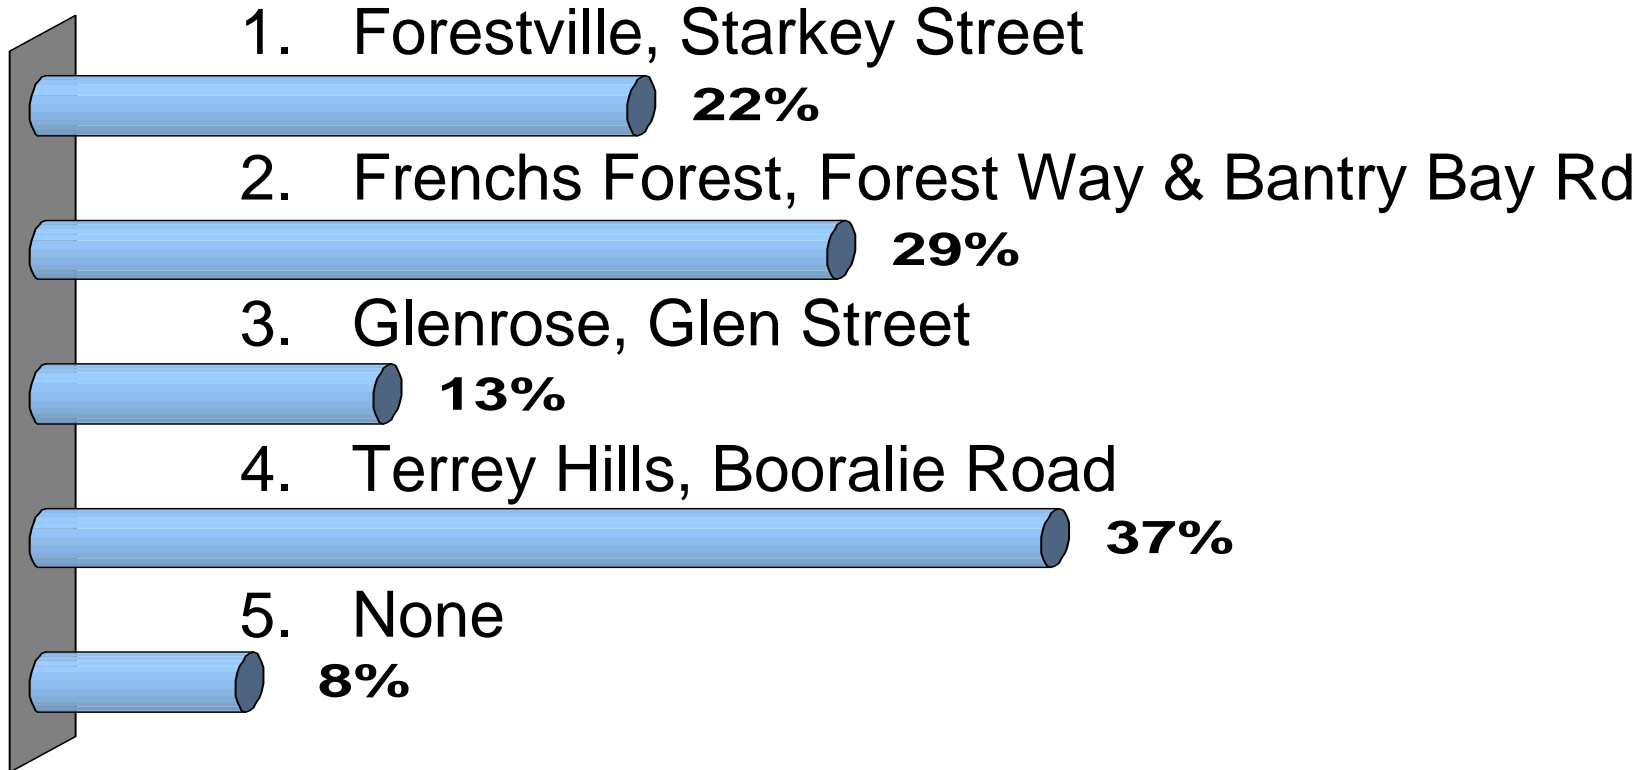

In Ward B, which centres do you think are suitable for accommodating further growth

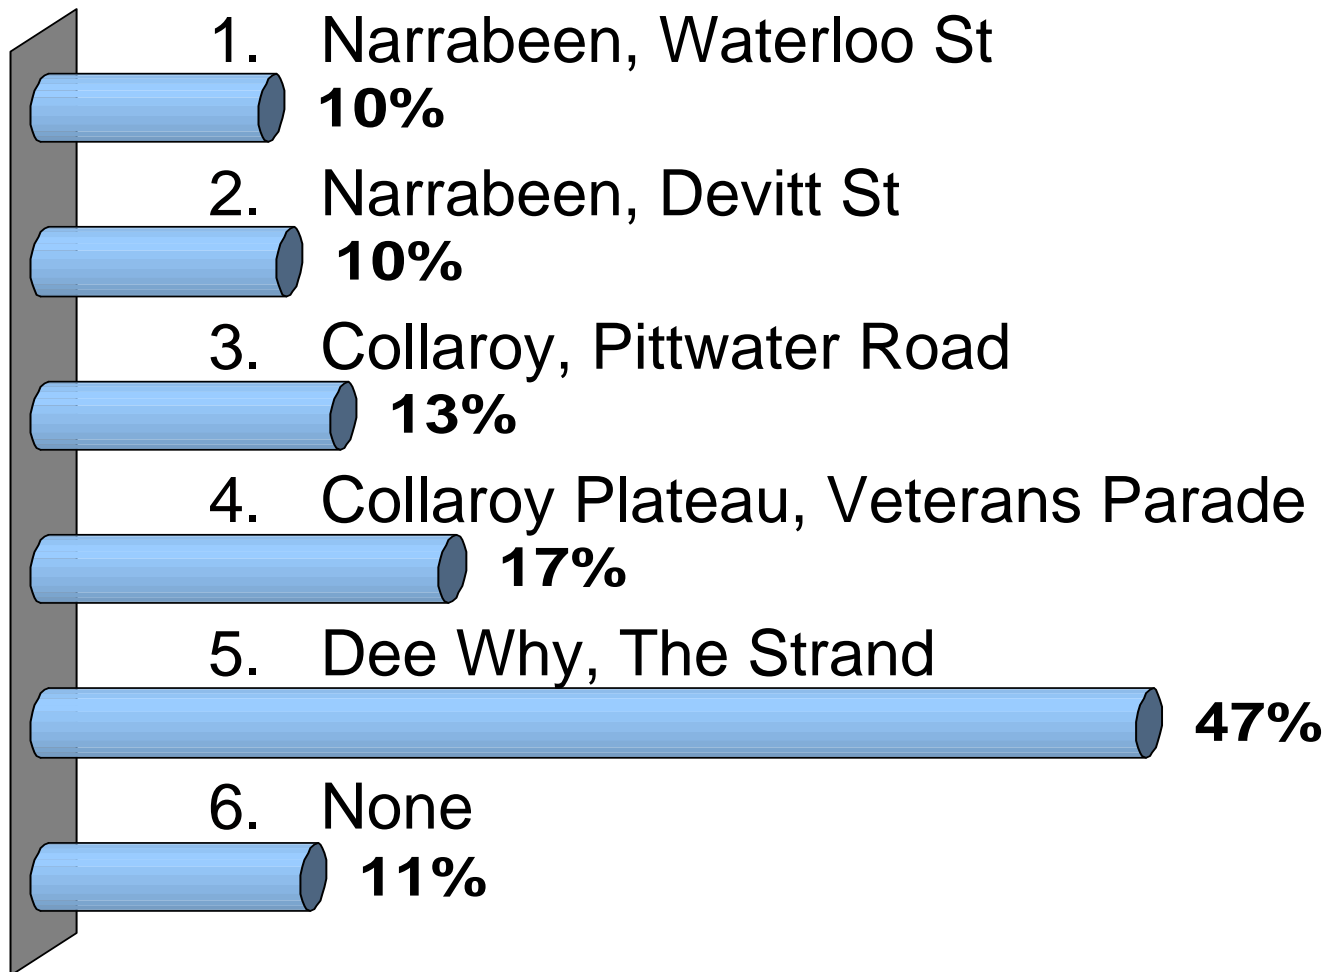

# In Ward C, which centres do you think are suitable for accommodating further growth?

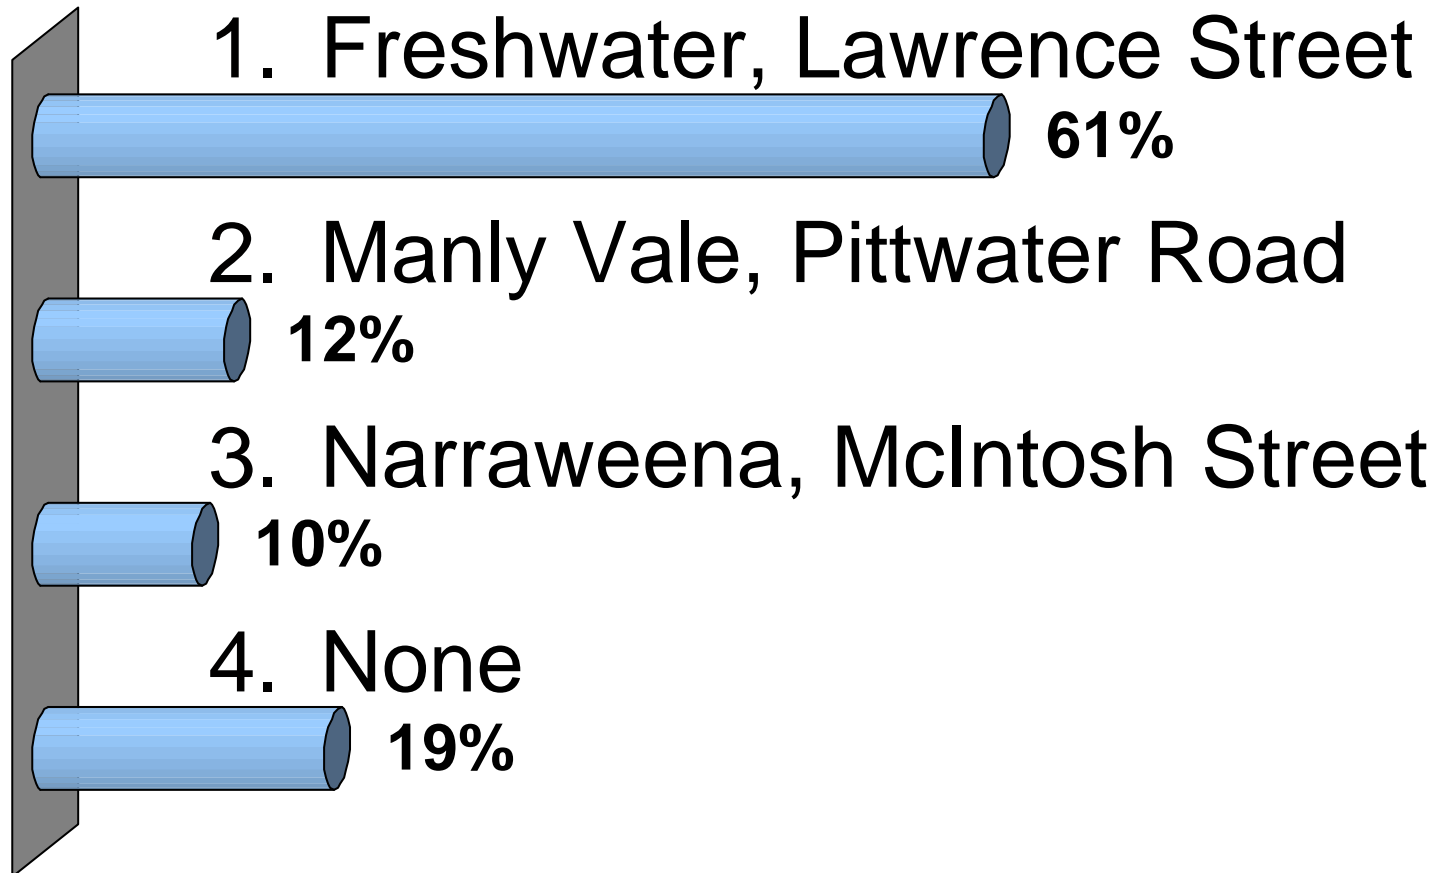

In Ward A, which centres do you think are unsuitable for accommodating further growth?

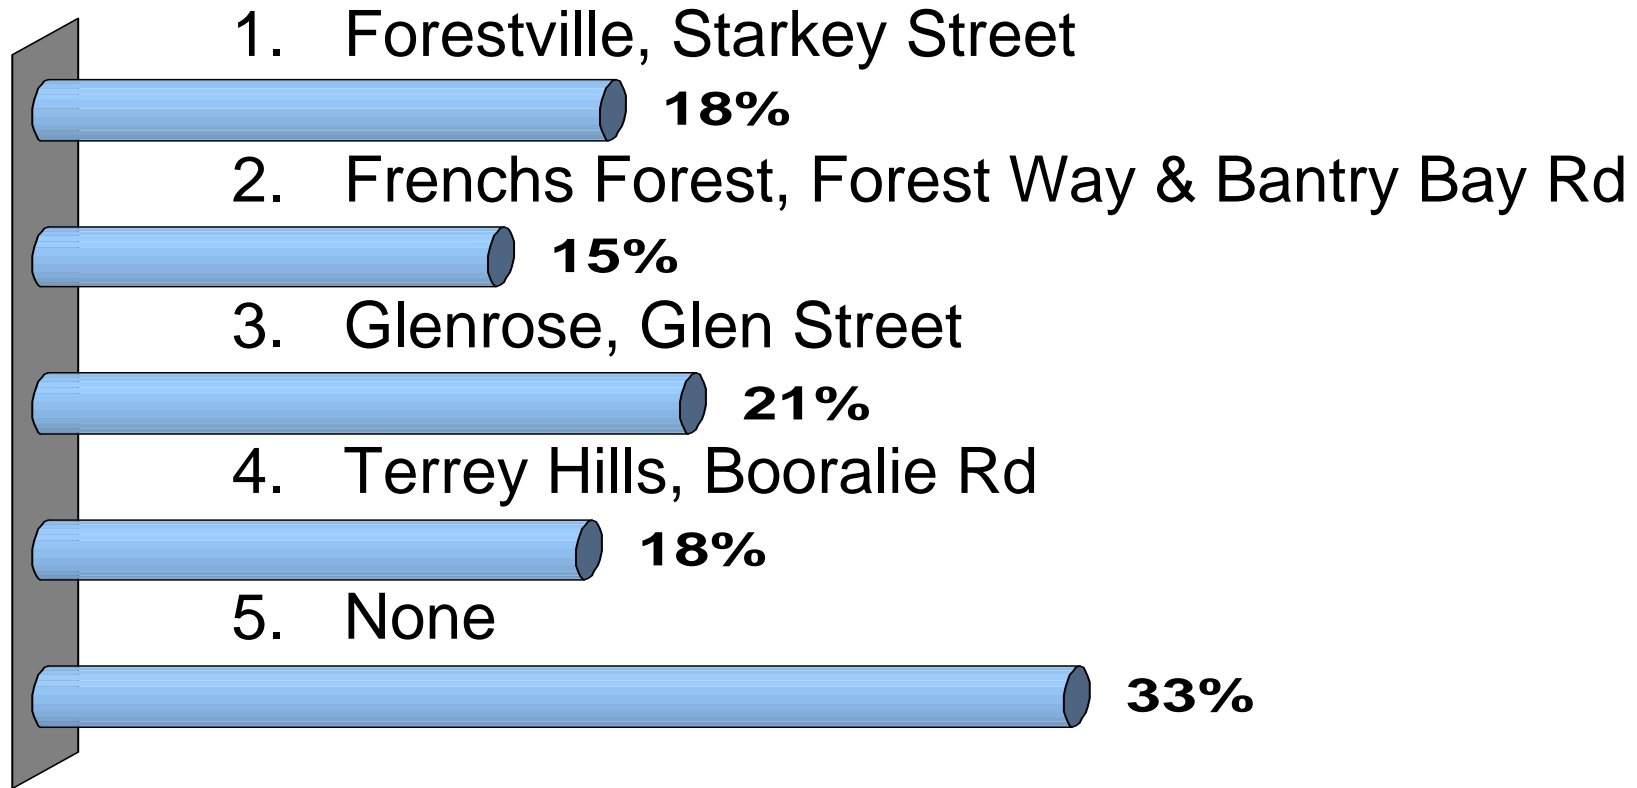

In Ward B – which centres do you think are unsuitable for accommodating further growth?

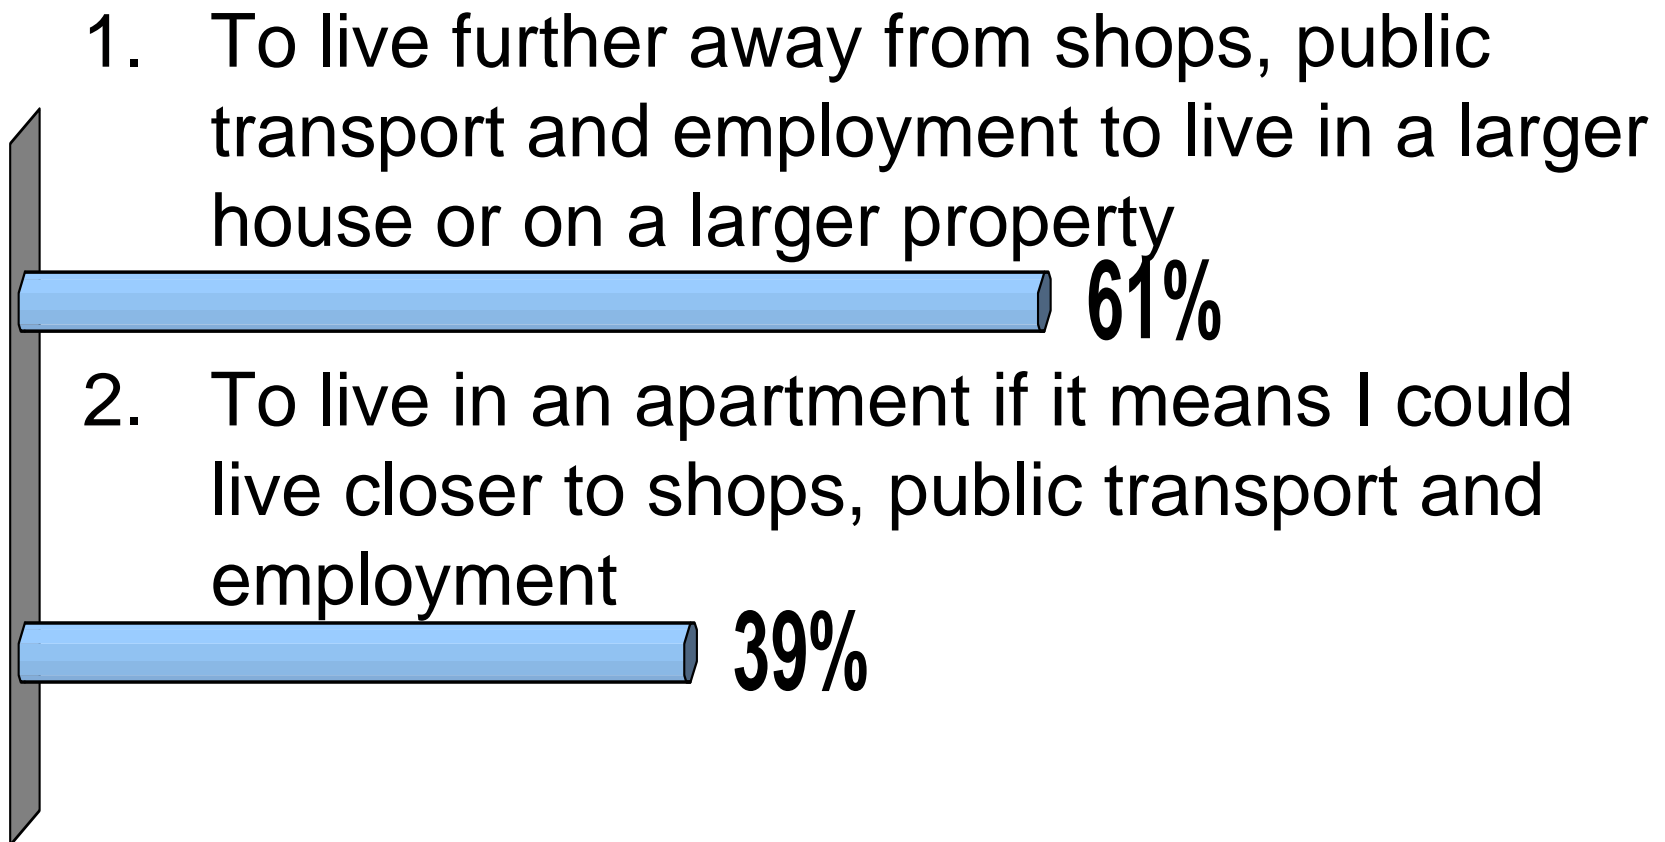

# In Ward C – which centres do you think are unsuitable for accommodating further growth?

# Housing Type Preference I would prefer;

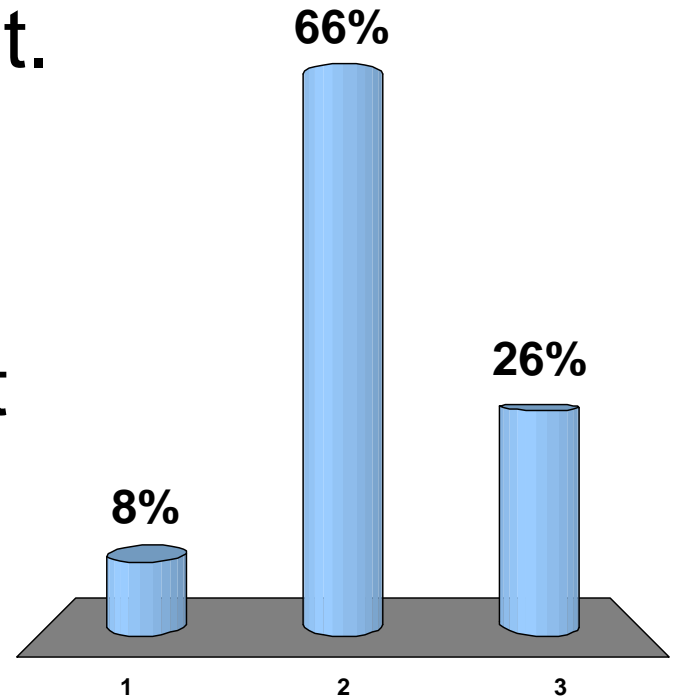

# Density

To meet the housing target I would prefer;

1. High density development.
2. Medium density development.
3. Low density development (including dual occupancy).

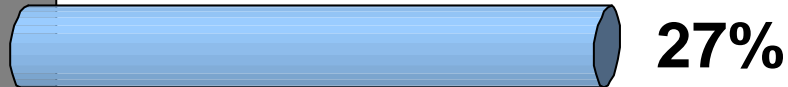

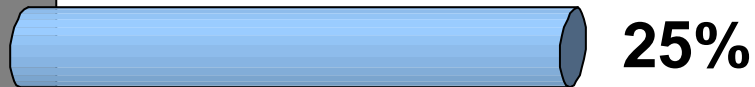

# Location

To meet the housing target I would prefer the majority of new dwellings to be located in:

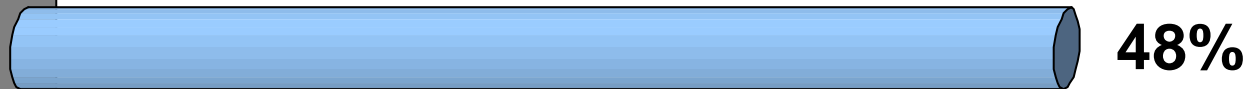

1. Non-urban areas.

2. Existing urban areas.

3. A limited number of existing centres.

# Affordable Housing

1. Affordable housing should be provided even if incentives such as additional floor space or increased height need to be provided.

A horizontal bar chart with a grey vertical axis on the left. A blue bar extends to the right, representing 27% of the total. The percentage value "27%" is written in bold black text at the end of the bar.

**27%**

2. Affordable housing should comply with the same controls as all other residential developments.

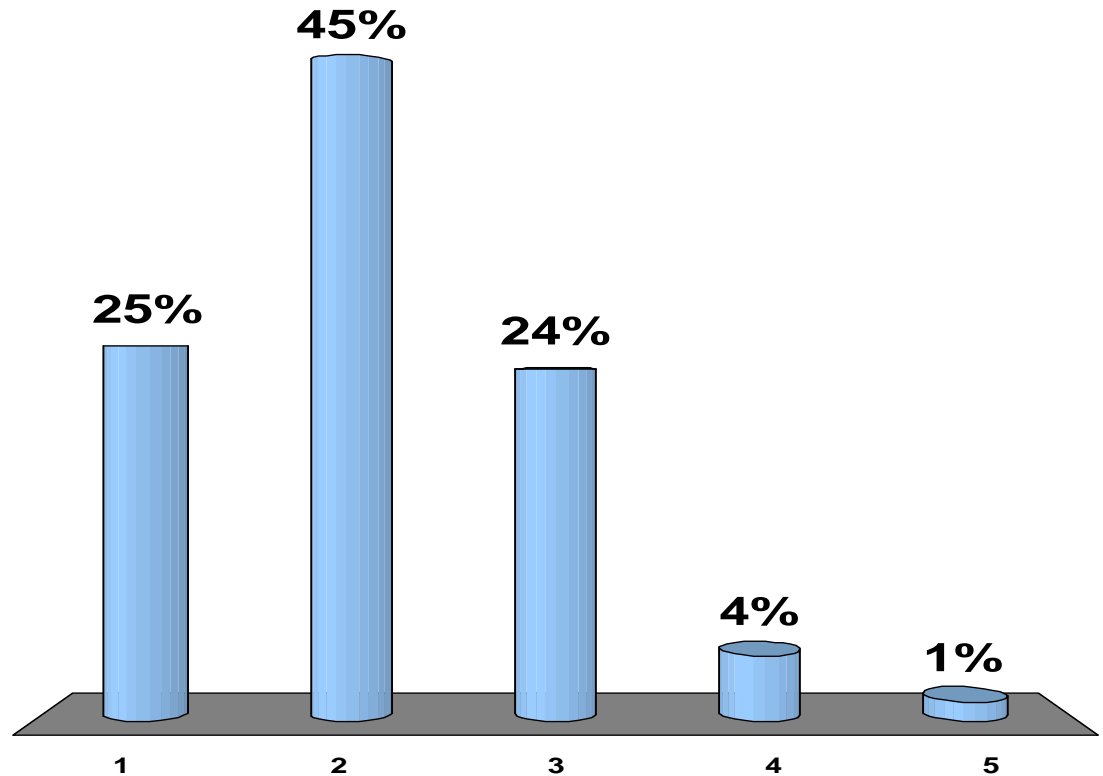

A horizontal bar chart with a grey vertical axis on the left. A blue bar extends to the right, representing 73% of the total. The percentage value "73%" is written in bold black text at the end of the bar.

**73%**
